

Product information

Glass cloth 40 x 40 cm

Characteristics

- May be laundered 600 times (minimum);
- High-absorption capacity;
- Smooth finish causes no shrinkage of the microfibre cloth;
- Does not leave fluff or dust particles.

Glass- and mirror surfaces may be cleaned smudge free with the Greenspeed[®] glass cloth. This cloth effortlessly removes dirt such as fingerprints and grease deposits. This is due to the smooth structure of the glass cloth, dividing the remaining water into very small drops, which will dry invisibly. Due to the smooth structure, the cloth slides easily across the surface, and is less 'catchy' to the touch. Users with a sensitive skin will surely appreciate this.

The microfibre technology of Greenspeed[®] guarantees quality and provides this durable cloth with its unique cleaning and absorbing capacities. With good reason, the Glass cloth is certified with the [Nordic Swan Ecolabel](#), the Scandinavian label that imposes strict requirements concerning environment, quality and health.

Specifications

Colour	blue
Dimensions	40 x 40 cm
Composition	100% microfibre
Weight	± 50 grams
