

ideal floor cleaning solutions

Effective in Capturing Microbes

Microfiber mops are 60% better than cotton mops at penetrating surface pores and capturing bacteria

Prevents Cross-Contamination

Microfiber mops virtually eliminate cross-contamination during janitorial tasks

Reduces Chemical and Water Use

Microfiber mopping systems use less water and chemicals, reduces the amount of water and chemicals handled and eliminates the need to wring heavy cotton mops resulting in less potential for worker injury

Featured Products

Click, fill, spray and clean in an instant! In just a few steps you can efficiently clean your floors in an innovative way with the **CLICK'M**, **TWIST MOP**, and **SPRENKLER**. The **TWIST MOP** is attached to the **CLICK'M** frame with a simple, unique magnetic system so that the mop is easy and quick to change or a Velcro strap and loop handle version for hygienic removal. If you combine this simple system with the **SPRENKLER** you no longer have to carry those heavy buckets as it has an integrated water reservoir.

Click'M Twist Mop

Click'M Twist Mop for damp cleaning of hard floors.

- The mop is attached to the plate with magnets
- Quick floor cleaning and a short drying time
