

Safeguard your brewery with extended antimicrobial protection

One application
every 30 Days

- Creates an antimicrobial bacteriostatic finish on high touch, high risk surfaces
- Environmentally friendly; Once cured, product is non-toxic, non-leaching & hypoallergenic
- Forms antimicrobial barrier on treated surfaces, providing extended protection between routine cleanings
- EPA registered and FDA approved for all food contact surfaces; Prevents mold and mildew on treated surfaces
- Available in various container sizes for convenient spray- and-wipe applications

Active antimicrobial molecule
“spikes” impale microbes,
destroying them
